Antioch Soon to Have Traffic Regulations; None Ever Existed

Ordinance Being Studied by Village Trustees for March Passage

Antioch is going to have a new set of traffic laws, the first she has ever had so far as is known.

The village trustees took home an 18-page document with 89 paragraphs which were prepared by Village Atty. Edward C. Jacobs from a study of traffic laws of other villages, and if they find it satisfactory they will no doubt pass it as a law at the next meeting in March.

One of the very few villages to be without traffic laws, Antioch has depended entirely on state laws for her arrests on traffic violations.

Chief Walter Scott and his staff find that they are powerless to arrest anyone for normal traffic law violations if the offense is off Main, Lake, or Rte. 173 the three state routes.

Most of the speeding and other offenses are on those streets, but the time is here when regulation is needed on the other streets too.

Most of the items of the proposed ordinance are adoption of state laws, but there are a few such as riding bicycles on sidewalks in the business district and parking which call for special treatment.

None of the documents at the village hall record any traffic regulations and if there ever were any they have been lost, Atty Jacobs said.

Antioch Polio Fund Reaches \$2,287.95 Mrs. Jedele Reports

Antioch Township's contribution to the Polio Fund totaled \$2,287.95, Mrs. Norman Jedele, chairman, announced yesterday.

"I am very pleased with the results. The community has responded very well," she said.

The total this year was more than last year and the year before, but less than the \$2,400 record of four years ago.

Mrs. Jedele said that there were 50 fewer canisters out this year than the year before and the fact that the amount obtained this year is greater gives testimony to the fact that the solicitors obtained more.

No goal was set for the community and the amount was left to the desire of the people to aid in a worthy cause.

Jones Bowls Hot 715 For Lasco Greenhouse

The pins were really rockin' and rollin' last Thursday night when Dale Jones of the Antioch Business Men's League bowled a 715 series at the Antioch Recreation.

Jones' average is 173, but he started out with a record breaking 265 game followed by a 241 and then 209.

Sparked by Jones' outstanding games, the Lasco Greenhouse team swept three games from the Antioch Milling Co. and replaced their opponents atop the league.

Jones is an employee of Johnson-Motors.

Village Will Attempt to Buy Ackerman Tract as Public Parking Lot

To Ask \$7 Vehicle Tag Fee After July 1—Buy Speed Control

While the parking project east of the Main st. business places is stalled for lack of a surveyor's report from the Chamber of Commerce, a new one projected by the Village board calls for the purchase of the property of Mrs. Charles Ackerman at Broadway and Orchard street.

The Ackerman property has been used for a number of years as a parking place and a carnival ground through courtesy of the owner whose death occurred recently.

Mrs. Ackerman, the widow, has assured Mayor James McMillen and Village Attorney Edwards C. Jacobs that the village will have first opportunity to buy the property which is an L-shaped tract fronting on Broadway and having an outlet on Orchard.

Settlement of the estate in probate court and appraisal of the property must come first.

Two Children, 1 Adult Injured Last Weekend

Last week was a week of accidents in Antioch.

On Friday, Thomas Effinger, 2, son of Mr. and Mrs. Jack Effinger received a serious abdominal injury when he was struck by a sled on which his brother, Donald, 5, was riding at Antioch Hill.

Donald was taking one last coast before going home and in doing so lost control of the sled which ran into Thomas who was seated near his mother. The younger boy became worse during the evening and he was rushed to the Children's Memorial Hospital in Chicago. He may be brought home tomorrow if his condition warrants.

On Saturday evening, Charlene, 12, daughter of Mr. and Mrs. Charles Cernak, suffered a fracture of her right arm while coasting at the same hill. Her mother is recovering from a broken leg, an injury received earlier in the winter while ice skating.

Mrs. George Garland, wife of the village trustee, suffered a dislocated right shoulder and a sprained wrist Saturday at her home 1040 Victoria st. when she fell down a stairway.

Fenton, North Chicago Palatine on Agenda for Sequoits in Five Days

Antioch Loses Overtime Tilt To Glenbrook at Northbrook Friday

The Antioch Township High School varsity basketball team will be too busy during the next week to mourn the 76-73 loss of the overtime game to Glenbrook at Northbrook last Friday night.

They will be out to avenge an earlier defeat at the hands of Fenton when the boys from Bensenville come here Friday night.

Next they will go to North Chicago High Saturday night to try to stop the onslaught of John Boyle who has a 30-point average a game, and then on Tuesday night will go to Palatine to play an early evening game which was moved ahead from Friday to permit a district wrestling tournament.

The Frosh-Soph game at Palatine will be at 6:30 p. m. and the varsity at 8 p. m. This should be a double victory for Antioch.

The North Chicago game will be a tough one. Boyle transferred to North Chicago from Chicago at mid-year, changed a 2-3 record for that time to 9-9. In three games he made 118 points; or a 40 point average.

Earlier in the season Fenton defeated Antioch there 73-67 after Antioch had established what it thought was a comfortable lead in the early quarters. The Sequoits won't take that chance this time.

The game at Glenbrook was a heart-breaker for Antioch. The Sequoits started out poorly and trailed 6-14 at the end of the first quarter. They kept on 18-18 pace with the Spartans in the second quarter, but went down again in the third quarter 17-24. In the final quarter the Sequoits staged a rally that saw them tying the score by holding the home team to 12 points while scoring 27. It was Al Reckers set shot in the closing five second that tied the score.

In the overtime Boyd and Sawyers scored quickly from the field for Glenbrook, but two free throws by Wayne Herbst and another by Reckers narrowed the margin to one point. Then Boyd tossed four free throws to clinch the game.

Boyd's 14 field goals and 14 fouls (continued on page 7)

In the all-events summary Henry Grewe was first with a total of 1927; George Broecker, fourth, with 1801; and Frank Huss, fifth, with 1890. Top prize was \$20, fourth was \$8 and fifth was \$5.

Lake Villa to Organize Rescue Squad if Fund of \$5,000 is Raised

Winsor Dalgaard, Formerly of Antioch Heads Drive For First Aid

Winsor Dalgaard, Lake Villa grocer, formerly of Antioch, is heading a movement to organize and support a Rescue Squad for that village and its surrounding area.

He and a committee are attempting to raise \$5,000 to equip a first aid truck similar to that possessed by the Antioch squad.

The Lake Villa Community Men's club will back the enterprise in the same manner that the Lions club sponsors the Antioch squad.

Already eight men have volunteered to take first aid training and serve on a squad which has for its membership list 12 men.

The operations of the Lake Villa Rescue squad would be maintained by popular subscription. The equipment would be kept in a central location with a certain number of men on duty at all times.

Contributions already are coming in, Dalgaard said. They may be sent to him at his grocery or to the treasurer of the organization, B. J. Hooper at the Lake Villa Pharmacy.

High School Again Will Take Part in Crusade for Freedom

The Student Council of the Antioch Township High school will again take part in the Crusade for Freedom, both in their own high school and in the grade schools in the district. Members of the Council will visit Antioch, Lake Villa, Channel Lake, Grass Lake, St. Peter's, Hickory, and Millburn schools. They will explain the functions of the Crusade for Freedom, ask for signatures on the scrolls of supporters of the Crusade, as well as for cash donations.

The Crusade for Freedom is a nation-wide movement to enlist the support of American people in the struggle against Communist tyranny and aggression. It does this by the support of Radio Free Europe and Free Europe Press.

These organizations—operated by the Free Europe Committee—are fighting Communism by pouring Truth through the Iron Curtain, giving captive peoples the knowledge and courage to resist their Communist leaders.

For five years Radio Free Europe has been broadcasting to the 70,000,000 people in Poland, Czechoslovakia, Hungary, Romania and Bulgaria.

For more than two years Free Europe Press has been sending balloons over the Iron Curtain, dropping millions of miniature newspapers.

Antioch has led larger places of the entire county in percentage of growth in the number of business enterprises during the last five years according to a report of Dun and Bradstreet.

The number of businesses increased from 153 in January, 1950, to 215 in January of this year, a percentage of 40.5.

Libertyville was next with 30.5. North Chicago showed a loss of 6.1 per cent and Waukegan a gain of 6.6 per cent.

The entire county showed a 11.5 per cent increase.

In 1956 there are 3,158 rated businesses in contrast to 2,832 in 1950.

The Dun and Bradstreet reference book lists commercial enterprises, manufacturers, wholesalers, retailers, and other businesses, generally those buying on credit. It does not list barber and beauty shops, and real estate brokers.

Fewer But Better

The Herald, of Ashton, Idaho, recently had something worthwhile to say about the agricultural situation and outlook. It is particularly relevant now, in the light of the concern many people feel over the decline in farm income following the extremely high peak reached during the war in Korea.

The Herald said: "By actual records, the farmer's buying power is increasing faster than the buying power of people not on farms."

"There you have the true picture. Farmers today are fewer, but they're better. Total farming income, therefore, is divided among a smaller number. . . . Increased mechanization . . . more efficient methods . . . increase and better use of fertilizer and modern watering systems—all these add up to a bright future for the competent farmer."

The technological revolution that began less than a century ago is still on a full-speed-ahead basis. In the last 15 years alone, the number of farm workers has gone down almost 40 per cent, while farm production has risen 30 per cent. This is the result of the enormous impact of modern agricultural machinery, coupled with the other aids mentioned by the Herald, on the arts of agriculture. There can be no doubt but that both consumers and good farmers have benefited enormously—both financially, and in the coin of better living.

This isn't to say that all farm problems, long run or short run, have been solved. They never will be. But the tools and techniques available today certainly justify optimism as to agriculture's future.

By the Back Door

The question of just how far government should go in providing medical care for veterans is a recurrent one—and it is also exceedingly controversial and touchy. It provides room for widely divergent yet equally sincere viewpoints.

The Hoover Commission report on the subject has been aggressively criticized. Some of the criticisms may be sound. Yet, by and large, the Commission pointed to abuses which could be eliminated without in any way endangering the benefits of deserving and needy veterans. Care for non-service-connected disabilities is a case in point. While these patients must file statements of inability to pay, the Veterans' Administration is prohibited from challenging veracity. A random General Accounting Office sampling of 336 declarations by veterans showed that many had substantial assets—\$500,000 in one case. The commission's recommendations that an inability to pay statement be subject to verification is certainly reasonable.

Most important, in the long pull, is the future picture. We have millions upon millions of veterans and their number will continue to rapidly increase. It is well within the realm of possibility and even probability that all-inclusive government medical care for veterans, regardless of what happened to them while in service, could lead to socialized medicine by the back door. We would get it even though the vast majority of Americans, veterans included, don't want it. This point should be an over-riding consideration in any appraisal of the issue.

The Low Down From Hickory Grove

Elementary Socialism—like your foot in the door type—is up for perusal at today's meetin'. And don't ho! hum! and say socialism can't or won't happen in our land of the free. It has already happened. Hark ye.

Ownership of land or a business or an automobile is a robust instinct. Without the right to own things of your choice, as your exchequer will allow, would take all the wind from any man's sails. And that is the foot in the door idea I have in mind. Sambo does have his foot inside our threshold—his nose under the tent—and further than appears on the surface.

If congress can put a "keep off the grass" sign at Grand Coulee or on 2 dozen other rivers or places, is would be no more difficult to lower the boom on the little fellow wantin' to build a lean-to to his woodshed. Sambo says tut! tut! to a bigger guy on a dozen rivers. Sambo has become a Big Smoke in kilowatts. He is not doin' so good, but he is doin' just the same. In the Pacific Northwest and in TVA there are power shortages. These are in Govt. operated districts.

Freedom is being blunted. Your freedom to build a lean-to can be watered down. It is no time to think you are sittin' too safe, as you glance around and see what is happening in other barnyards—and to the other fellow. This is no time to ho! hum! or look out the window. Confucius would say, "Too big Govt. not just pain in other guy's neck."

Four Million Babies Last Year
The baby boom continues; over four million were born during 1955.

That means 25 new babies for every 1000 population. The record high was reached in 1947 with 28.8 babies

per 1000. During the depressing decade of the 30's, the birth rate was 18 per 1000.—The Kiplinger Letter.

They Torqued it up for the **BEST** **TAKE-OFF** **YET**

FIRST THING you need in a car, of course, is power to spark performance.

And you get that in a 1956 Buick in plenty—from big 322-cubic-inch V8 engines that hit new highs in horsepower and compression.

But the power under the hood must be carried to the rear driving wheels in the form of twisting force on the drive shaft.

That's torque—the end-product of your transmission.

And the higher the torque build-up—the greater the "torque multiplication" in starting and accelerating—the better the getaway and response.

So if you want to feel take-off that leaves your breath behind you, come try a '56 Buick with Variable Pitch Dynaflo.*

For in this airplane-principled transmission,

Buick engineers raised the ceiling on torque to give you the best getaway yet.

They did it with something they call "double regeneration"—a new way to make flowing oil add to its own velocity.

And when you use the full torque of a Buick beauty like the one pictured above, you're using the highest torque multiplication to be had in any standard-production American automobile today.

Come see for yourself what that means in new thrills and new safety.

You'll find brilliant new getaway response in

the first inch of pedal travel—plus greater gas mileage to boot.

You'll find an electrifying new safety-surge of full-power acceleration when you floor the pedal and switch the pitch.

And you'll find this spectacular performance blended into the smoothest-traveling, the sweetest-riding, the highest-powered and the easiest-handling Buicks yet built. Drop in on us this week—today, if you can—and judge things firsthand.

*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

dressed the board of trustees on the parking problem, was told that parking is the No. 1 claim on the sales tax which during the first three months has an accumulation of \$9,726.54.

Civil Defense Director John L. Horan reported the activities of his office in acquainting citizens of the emergency alarms. He said that he feared that measures which would impress some with the serious need of defense measures would be too frightening to others.

The board instructed Atty. Jacobs to draw up an ordinance calling for a fee of \$7 for automobile stickers after July 1 each year. Earlier than that calls for a \$5 fee.

The board voted \$75 expense for

a representative of the sewer department to attend a sewer and water short course at Urbana.

A resolution was passed calling for purchase of a one-man speed control apparatus. The machine records the speed of the vehicle and flashes the result to the patrolman ahead who has time to stop the motorist if he is exceeding the limit.

The instrument would be used on Main and Lake streets where most of the speeding occurs. The same type of instrument was used in Waukegan with success.

THE 860 TWO-DOOR CATALINA

The car says 60 and the price won't stop you!

Easy way to break the small car habit!

It's the hardtop buy of the year—the most power and size per dollar of any car in this style.

If you're accustomed to buying in the low-priced three range, chances are you're paying for Pontiac's size, performance and distinction—but you're not getting it! As a matter of fact, you're not even coming close!

Actually, the big, handsome Pontiac 860 Catalina you see here is priced within the

reach of just about any new-car buyer!

Its king-size 122-inch wheelbase gives you up to seven inches more road-leveling length. This extra-long wheelbase—size where it counts—is what gives Pontiac its genuine big-car comfort and stability. And certainly it follows that this size extends as well to its rich, luxurious interior!

But behind the wheel is where you really feel your dollars doing double duty!

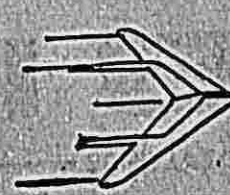

Where else at a price so low can you enjoy the thrilling sensation of bossing the most modern, most advanced power plant in the

industry—the mighty Strato-Streak V-8?

Where else at a price so low can you get the luxury of Pontiac's optional Strato-Flight Hydra-Matic—America's newest, smoothest automatic transmission?

Where else at a price so low can you find all the other fine-car features that put you so squarely on even terms with buyers of far costlier cars?

Come in this week and see how easily this heart-lifting Strato-Streak beauty can be yours. Once you do, you'll be out of the small-car class forever!

You can actually buy a big, glamorous Pontiac 860 for less than you would pay for 44 models of the low-priced three!

Training as Practical Nurses Given in New Courses at Waukegan

An opportunity for Antioch women and men to get training in practical nursing is offered through a course which will be given at Waukegan High school starting Feb. 20.

Persons between the ages of 17 and 55 may take the course which includes 16 weeks in classroom instruction and 31 weeks in hospital clinical instruction.

The studies cover eight hours a day five days a week.

There are personal interviews and

entrance tests, and a physical examination.

Educational requirements are from the age of 17 to 25 years inclusive, two years of high school or the equivalent thereof; age 26 to 55 inclusive, completion of the eighth grade or equivalent thereof. References are needed.

Waukegan and other north shore hospitals are used for the clinical instruction. A \$4 per day stipend is paid each trainee during the time with the affiliate hospital. However, the trainee must pay her own living expense. Board and room can be arranged at some hospitals.

An alternate is no stipend, but board, room and privileges of the base while assigned to training at the Veterans Hospital at Downey.

An attempt will be made to place the student in the hospital nearest

her home, but the school reserves the right to place the student to give adequate clinical training.

The cost of the course will be \$60 tuition on admission, and \$50 uniform rental, books, watch, thermometer, etc.

Practical nursing as a profession promises to be satisfying in the opinion of in-training students at Waukegan. It's no sissy job and the field is about divided between men and women students.

When their training is completed the trainees will have no difficulty finding jobs for practical nurses are as much in demand as professional nurses, and they are well paid.

As State Auditor of Illinois, Orville E. Hodge supervises 4,000 state-chartered financial institutions.
